

Proportional Giving

"Honour the Lord with thy substance and with the first fruits of all thy increase."

Proverbs 3 vs. 9 - 10

[Proportional giving](#) is a regular, intentional program of giving a specific amount of money and provides a disciplined approach to Stewardship which begins with our own commitment, faith and willingness to grow spiritually through our giving. It is about giving back a portion of what God has given us.

The Biblical notion of proportionality is fair for everyone. You pledge and give in proportion to what you have or make. Our giving is to be of the first fruits of what we have. We are to give back to God first and then determine what to do with the rest.
